TODAY & TOMORROW

JULY 7-AUG. 3, 1984

ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

(Newsbriefs continued)

A day-long workshop designed for health providers who care for Southeast Asian refugee families will be held on Friday, July 20, at the First Unitarian Church, 1187 Franklin Street, SF.

Sponsored by the Division of Family and Community Medicine, the workshop will review the cultural origins of the Southeast Asian groups, identify key concepts in cross-cultural health care, identify strategies for negotiating the provider-patient-interpreter triangle, and teach participants how to apply cross-cultural skills to maximize provider-patient interaction.

The $40 workshop will be given by Family and Community Medicine faculty members Ying Mei Tcheou, Paul DeLay, Francesca Farr, Shotsy Faust, and Peter Sommers; and Don Cohon, pediatrics/psychiatry; Evelyn Lee, psychiatry; Renetia Martin, Southeast SF Area Health Education Center, Inc.; and Duc Minh Tho, Refugee Screening Clinic, SFGH.

For registration information contact Extended Programs in Medical Education at x5808.

Three UCSF faculty members have received the Academic Senate's Distinction in Teaching Award in recognition of their excellent teaching abilities.

Recipients are O. Ross Beirne, DMD, PhD, Richard J. Haber, MD, and Ira Herskowitz, PhD.

- O. Ross Beirne is an assistant professor of oral and maxillofacial surgery in the Department of Stomatology, School of Dentistry. A UCSF faculty member since 1979, he also is a lecturer in the Department of Biochemistry and Biophysics, and teaches dental students in all four years a wide range of topics ranging from the biochemistry of clotting and bone metabolism to medical emergencies for dental hygienists.
- Richard J. Haber, MD, is an assistant chief of the San Francisco General Hospital Medical Service and chief of the Division of General Internal Medicine. Director of UCSF educational programs for third- and fourth-year students, house staff, and general medicine fellowships at SFGH, Haber also holds the title of UCSF assistant professor in residence in medicine.

Winner of the Kaiser Award for Excellence in Teaching in 1980, Haber has been voted by every UCSF graduating medical class since 1980 as one of the "Ten Most Outstanding Faculty Members at UCSF."

- Ira Herskowitz, PhD, is professor and vice chair of biochemistry and biophysics and head of the UCSF Division of Genetics. Vice president of the Genetics Society of America, he is the winner of the 1983 Eli Lilly and Company Award in Microbiology and Immunology for his major discoveries in genetics of mating type in yeast and regulation of temperate bacteriophages.

Herskowitz came to UCSF in 1981 from the University of Oregon. He teaches the Biochemistry 100A course to UCSF medical students and is the course organizer and principal lecturer

The First Annual Francis A. Sooy Lecturer is J. McAuliffe Curtin, FRCSI, FACS, chair of the Department of Ear, Nose and Throat, St. Laurence's Hospital, Dublin. He will present the Sooy Lecture, entitled "Historical Aspects of Medicine and Surgery in Ireland," on Wednesday, July 18, at 4 p.m. in Toland Hall.

Chair of the admission board and past president of the Royal College of Surgeons, Ireland, Curtin is an honorary fellow of the US Triological Society.

During his three-day UCSF residency, Curtin also will lecture on "Health Care in Ireland and the United Kingdom" on Monday, July 16, at 9 a.m. in Medical Sciences Room 214, and on "Mixed Tumors of Salivary Glands" on Wednesday at 9 a.m. in Room 125 A, Building 200 at the VAMC.

He also will conduct ward rounds at Moffitt/Long Hospital, VAMC, and SFGH.

The Sooy Visiting Professorship is an endowed lectureship in the Department of Otolaryngology named in honor of Chancellor Emeritus Francis A. Sooy, MD, professor of otolaryngology. Sooy served as UCSF chancellor from 1972 to 1982, and chair of the Department of Otolaryngology from 1958 to 1972.

Scott M. Fields, PharmD, of Santa Maria, won the Bowl of Hygeia during the School of Pharmacy's commencement on Saturday, June 23.

Established by the class of 1966 and funded by the UCSF Pharmacy Alumni Association, the Bowl of Hygeia is awarded to the senior student who, in the estimation of instructors and classmates, "best demonstrates the qualities of an ideal pharmacist in action, thought and attitude."

Runners-up for the award were Janet Eiko Iwatsubo Tamura, PharmD, of Fresno, and Richard A. Wagner, PharmD, also of Santa Maria.

- A recent winner of the Dean's Award for Genetics 200A, which explores the fundamentals of genetics.

Presented annually since its inception

NEWS BRIEFS

(Academic Senate Awards)

in 1951, the award recognizes excellent teaching abilities in UCSF Academic Senate members who have completed fewer than five years of faculty service. The winners are selected by a special committee appointed by the UCSF Committee on Academic Personnel, consisting of students and faculty members from each of the four professional schools and the Graduate Division.

A legislative committee held a hearing on campus on Thursday, June 28, on the subject of the emerging biotechnology industries in California and what the state can do to attract and keep them in the state.

The hearing by the Assembly Committee on Economic Development and New Technologies was chaired by Assemblyman Sam Farr (D-Santa Cruz/Monterey).

Although California currently has almost half of the biotechnology industry employment in the US, Farr said, recent studies show that without concerted action the industry will expand elsewhere due to the lack of research/industrial park space in which to grow, the cost of housing, and the attractiveness of other states' university research and teaching programs.

The purpose of the hearing was to investigate how the state might be able to anticipate this trend and prevent what otherwise will be a costly "brain drain" to other states and counties, Farr added.

Witnesses included UCSF Chancellor Julius R. Krevans, UC-Berkeley Chancellor Ira Michael Heyman, and UCSF researchers Charles Higgins, professor of radiology, and Ira Herskowitz, professor and vice chair, biochemistry/biophysics, and head of the UCSF Division of Genetics.

A new commuter bus service linking both northern San Mateo County and San Francisco's Sunset district with nine SF hospitals and universities, including UCSF, began in June.

The "Skyliner" is a convenient, economical, ride-sharing alternative to driving alone to campus. One-way fares range from $.75 to $1.25 depending on the pickup point, or you can buy a discounted 20-ride coupon book. Skyliner bus schedules are available at the Transportation Services Office, Room LS 105. For further information call x1511.

for Academic Excellence, Fields has the highest GPA of his class. A Regents' Scholar and a member of Rho Chi, the national pharmacy honor society, he attended Allan Hancock College in Santa Maria.

• Iwatsubo Tamura is the winner of the Associated Students of the School of Pharmacy Outstanding Service Award. A 1976 graduate of UCLA, she was president of the UCSF senior class.

• Wagner also is a member of Rho Chi. He received his BA in 1979 from UC-Santa Barbara.

UCSF and Pacific Bell have signed an agreement for Pacific Bell to provide an upgraded telecommunication service to the campus by late summer or early fall, 1985. Specific installation plans now are being developed and will be announced as they become available.

Some of the main features of the new service include push-button dialing, a simplified dialing plan (dial 9 to reach any outside number), call forwarding without operator assistance, and speed calling (ability to dial a number by pushing one digit).

Consultations with each department on specific phone needs are being planned. In addition, Pacific Bell will provide planning and training assistance.

Construction has begun in the lobby of the old UC Hospital building for new Academic Senate offices. Their present office in Room 101 Medical Sciences will be renovated, along with the Chancellor's Office in Room 126, to relieve congestion.

The construction, which will last through August, will create a great deal of noise and dust, and some utility shutdowns will be necessary. For further information contact Gerry Boyd at x5343 or David Layne at x2911.

Do you have any extra clothing you no longer wear? Some Langley Porter patients are in need of casual clothing, including shirts, pants, skirts, dresses, blouses, and all kinds of children's clothes. Bring your unwanted clothes to the main information desk in the lobby of Langley Porter or call Dale Houston, chair of the LPPI Patients Benefit Fund, at x77-427.

Free champagne and strawberries will be given away from Friday, July 13, to Friday, July 20, from 2 to 5 p.m. at Millberry Union Cafe's grand opening celebration.

Located on the northwest side of the cafeteria, the cafe/deli will feature made-to-order sandwiches, gourmet salads, whole roasted chickens, freshly baked pastries, breads, cookies, and gourmet specialty items.

In addition, meats, cheeses, and salads may be purchased in bulk from the deli to take home or for impromptu office picnics.

For further information call x1960 or the Millberry Union catering service at x3985.

Gert H. Brieger, MD, PhD, professor and chair of the History of Health Sciences, was honored by several of his friends and colleagues at a farewell reception in late June. Brieger officially left UCSF on June 30 to return to his alma mater, Johns Hopkins, as the William H. Welch Professor and director of the Institute of the History of Medicine.

Brieger came to UCSF in 1975 from Duke University, where he was an associate professor for some five years. In 1968, he received his PhD from Hopkins, where he was on the faculty until 1970.

Edwin G. Bovill, Jr., MD, professor and vice chair of orthopaedic surgery and chief of the Orthopaedic Surgery Service at SFGH, retired effective July 1.

Now professor emeritus, Bovill held both positions for some 21 years. He continues to serve as chief of the UCSF Bone Tumor Clinic, which he founded 10 years ago, and remains an orthopaedic oncology consultant for the Bay Area. He had been a member of the attending staff at SFGH since 1953.

Lorraine J. Day, MD, UCSF associate professor of orthopaedic surgery, has been appointed acting chief of the SFGH service.

The 1984 UCSF Public Service Programs Directory is being updated. It highlights for the community the special services provided by UCSF faculty and staff and provides an easy reference for those seeking campus services.

Public service programs are defined as educational, service, or support activities at UCSF for individuals or groups off campus. The categories include:

• community health services (summer dental outreach programs, Poison Control Center, habit abatement clinics, etc.)

• public events (Brown Bag Tours, Millberry Union activities, CHEP, etc.)

• public service activities (individual and UCSF-sponsored, including voluntary health organizations, community and public boards, advisory councils, SPUR, United Way, YMCA, etc.)

To update the directory, contact Dave Bracker at 1308 3rd Avenue or call x3206.

The Moffitt Cashier's Office will be closed on weekends and holidays, effective July 1. Check cashing services only will be offered Monday to Friday, 11 a.m. to 6 p.m.

Fourteen School of Dentistry faculty and staff members were honored at the school's second annual Retiree Recognition and Service Award Ceremony on Wednesday, June 27.

Honored for retiring this year were faculty members Charles Hemphill, DDS, and John Sapone, DDS, and staff members Loretta Blake, Olive Keller, Margaret Munson, and Ersilia Novembri. Honored with 15-year pins were Jean Johnson and Gwen Quiett; and with 10-year pins, Joanne Daley, Timothy Marvin, Rachel Nelson-Simmons, Lilli Rasmussen, Plas Salvador, and Gloria Yoshida.

Some $2.5 million has been granted to UCSF researchers from the American Cancer Society, including nine first-time grants totalling more than $455,000.

First-time grants to UCSF researchers include $169,932 to Wendy L. Washtien, PhD, in the laboratory of Daniel Santi, Department of Pharmaceutical Chemistry, for "Fura Metabolism in Human Gastrointestinal Tumor Cells." Other new grants went to Arthur M. Bruskin and David E. Levin, microbiology/immunology; Edwin Cadman, Cancer Research Institute; Larry W. Hardy, Marc W. Kirschner, and Aaron P. Mitchell, biochemistry/biophysics; John A. Rambosek, anatomy; and Bruce Tempel, physiology.

Applications for UC funds for research on Acquired Immune Deficiency Syndrome (AIDS) are due in the Office of Health Affairs, UC-Berkeley, by August 31, announces the President's Universitywide Task Force on AIDS.

The funds, if appropriated by the state legislature, will enable investigators currently working on AIDS to continue their research, and will provide the opportunity for investigators in other areas of research to initiate AIDS studies.

Members of the UC faculty, including clinical and adjunct professors, on any of the nine campuses are eligible to apply.

Information and application forms may be obtained from Contracts and Grants, 145 Irving Street, or by calling x2977. The funding period for this academic year is limited to eight months, with no extensions possible.

MOVES

The academic offices of the Department of Orthopaedic Surgery have moved from U 410 to U 454B (Harry B. Skinner, MD, PhD, telephone changed from x1166 to x2305); U 411 to U 454 (Rosemary Strehl, AA, x2495); U 413 to U 450B (William R. Murray, MD, professor and chair, x2280); U 413A to U 450A (Eleanor Dekelaita, secretary, x2280); and U 414 to U 450 (Tana Mitchell, MSO, x2228).
